## Local Scotch Folks Remember Robbie Burns

In our haste we came near forgetting to mention one of the jolliest affairs ever experienced by local sons and daughters of the Scottish clan.

On Monday night, in response to urgent invitations, a select party congregated in the Masonic Hall to pay their annual tribute of respect to the memory of the immortal Robert Burns. There were about one hundred and fifty people present, some Scotch, some Welsh, some English, some Irish, some Canadian, some French—and, in fact, there was so much of every blood and nation represented that one might have had occasion to guess for a lifetime as to what sort of material constituted a Scotch man. Fortunately, the chairman could boast of having a little Scotch in him. Mr. Carter filled that office in an able manner, not forgetting in his opening remarks to refer to the committee responsible for the getting up of the affair and who no doubt would bring it to a successful conclusion. The idea of a celebration arose in the minds of a French-Canadian Scotchman, an Irish Scotchman and a Scotch Scotchman, and they were promptly assisted towards the materialization of their dreams by ladies with more or less Scotch in 'em. The programme was brief, but full of everything that lent towards the atmosphere that the great immortal bard would cultivate Scotch songs, Scotch stories, Scotch drinks, and a real up-to-the-mint Scotch supper. Tables were spread to accommodate everyone, and were laden with haggis and other morsels.

Responsible for a Scotchman having wits. Following the supper, the floors were cleared, and dancing was indulged in to the strains of Scotch melodies from Anderson's orchestra. Dancing was kept up and real justification reigned until the clock struck three. Then homeward all took off their several ways, the younglings cottagers retired to their rest."

## Council Holds Regular Meeting

The regular fortnightly meeting of the Blairmore town council was held on Thursday night last, Mayor Ewan and Councillors McDonald, Gillis, Montalbetti and Beebe being present.

The minutes of previous regular meetings were approved as read, and the following accounts were passed for payment: Electrical Inspection Service \$22.95, Alberta Government Telephones \$13.55, Canadian General Electric \$5.61, Dr. Olivier \$62.50, Blairmore Hardware Co. \$25.85, E. J. Pozzi \$22.60, W. A. Beebe \$20.00, J. Patterson \$21.00, B. Scariati \$17.90, J. B. Harmer \$10.00, J. H. Putnam \$48.30, United Typewriter Co. \$7.50.

Consideration of by-law appointing officials was laid over until next meeting.

A sum of over fifty dollars was voted to be paid out to firemen for services in connection with the Trono-Co-op. fire.

Councillor Beebe advanced a proposition through which certain property at the corner of Sixth Avenue and State Street might be secured for municipal purposes, and the council decided to give the matter consideration at next meeting. The property in question comprises the Wilson residence and liver barn, together with lots, which could be purchased for a rather nominal figure, and which would make a desirable firehall, municipal offices and living quarters for firemen.

Spuds are now \$100 a ton at the B.C. coast.

ployed by the profiteer to cover up his abominable stockpiling, watered, amounts written off as depreciation without warrant, capital expenditures treated as legitimate current costs of doing business, reserve funds created for purposes to which they will never be put. Working men advance high costs of living for wage demands out of all reason, the increased living expenses often being the result of waste and extravagance in living. Farmers demand the application of certain principles in the marketing of wheat, but when, as a result of a temporary change in conditions, they stand to lose, they denounce the very system they advocated and charge that it was adopted to advance other interests than their own. Advertising is often nothing more nor less than camouflage, and this is particularly true in connection with advance notices of theoretical predictions, the flotation of bonds by other companies, and similar propositions.

Yet in the long run none of these deceptions pay. Sporting organizations may defy their own agreements and keep bidding against each other until all are ruined and a limit reached; the pupil which indulges in camouflage loses its power and influence for good; the politician is ultimately found out and cast aside by a public that has lost all confidence in him; fake advertising and unscrupulous business methods may flourish for a season, but it is the business resting on a firm foundation of honesty and public service which achieves the most marked successes.

Camouflage served its purpose in the war, but the longer that terrible struggle lasted the less effective was camouflage and the more difficult it became to keep it up, as each development was quickly offset by another. So it is in everyday life. Hypocrisy and deceit may serve for a season, but it is the truth alone survives and continues triumphant.

The need of the world today is a return to the old principles and traditions of the past; a renaissance of old-time sterling honesty and adherence to truth and principle no matter what the outcome may be. People are becoming impatient of trickery and deceit. They are demanding an uncovering of stark, naked facts governing all conditions of life. The sooner the uncovering process takes place in all its fullness the better it will be for all.

The publisher of the best Farmer's paper in the Maritime Provinces in writing to us states: "I would say that I do not know what you mean by 'camouflage' but I have stood the test of time like MINARD'S LINIMENT. It has been an unfailing remedy in our household ever since I can remember, and has outlived dozens of would-be competitors and imitators."

In law, witnesses are sworn to tell the truth, the whole truth and nothing but the truth, yet questions are put to witnesses skillfully designed to suppress the whole truth, and often to convey an intentionally wrong meaning.

The church is declared to be founded on truth itself, yet conditions of life are so camouflaged from many a pupil that people are deceived and a wholly erroneous impression conveyed.

Much of our accepted form of political tactics is nothing more nor less than camouflage. Men are found denouncing the party form of government while engaged in the attempt to form another party in which they and their views will find more cordial acceptance than was accorded them by existing parties. Parties and individuals in opposition denounce patronage, and proceed to practice it when they succeed to office. The most outspoken揭露者 is frequently the one who can hardly utter a title as a position of honor. Scores and hundreds of men today openly advocate prohibition, but secretly vote against it, or connive at its violation when an attempt is made to enforce it.

Throughout the whole sphere of business the art of camouflage is practised. All kinds of devices are em-

## Tobacco Grown In Southern Alberta

Success This Year at Experimental Farm Near Lethbridge.

Cigars made from tobacco grown in Southern Alberta were recently distributed at a dinner of the Rotary Club at Lethbridge. The tobacco was grown on the Dominion Experimental Farm near Lethbridge last summer. A seed of a cigar variety was obtained from Ottawa and planted last spring under glass. About fifty plants last spring were afterwards transplanted in the ground and spent in the open. They grew a prolific foliage, which was gathered early and cured, and a very good cigar leaf obtained.

Mr. W. H. Fairlie, the farm superintendent, is not at present making any predictions on the commercial possibilities of tobacco growing in Southern Alberta, but intends to carry on the experiments further during the coming season.

Waiting works wonders — if you keep busy while waiting.

Why German Weeps

Germany is weeping again. She has won many times since the armistice. She will weep still more in the future. For by her tears she hopes to subdue the curse of association of America and the allies. If the separation comes, Germany's future course of action will be clear. Preparation for revenge can be safely begun. All of Germany's plans for revenge depend on America's future attitude toward the war-worn democracies of Europe.—Minneapolis News.

## Faint and Dizzy Spells. Weakness and Shortness of Breath.

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, trembling, irregular beating, aching sensations, a weak, failing, all-gone feeling, choking sensation, etc.

Many men and women become nervous and irritable when their hearts, they could be strong and healthy if they would only pay some attention to the first sign of heart weakness.

Now, however, we do so much to make the heart strong and vital, and vigorous, it beats and restores it to a healthy and normal condition as Milburn's Heart and Nerve Pills.

As Milburn's Heart and Nerve Pills, we write: "I have used on towards the second box of Milburn's Heart and Nerve Pills and find they have done wonders for me. I have had dizzy spells, once in a while, and also weakness and shortness of breath, and would become so choked up at times I could hardly sleep without sitting up in bed. With the pills, too fast I would have to stop and try to catch my breath. I feel a lot better since I have used your pills and know that they have helped me wonderfully as I have never seen much."

## U. S. Settlers Expected

Big Influx Is Looked For In West During 1920.

An unusual influx of farm settlers is expected in the western provinces in 1920. Over 50 per cent. of the farm settlers who came to Canada in 1919 were from the United States and Americans will form a large percentage in 1920. One reason is the unprecedented rise in the value of farm land in the middle western states. The average increase in the price of farm lands in Iowa in the last year has been \$100 an acre and the total increase in farm valuations is over a billion dollars.

A man may save money, but he need not hope to save by money.

## British Columbia's Great Mineral Wealth

The Mineral Resources Which Lie Practically Untouched in British Columbia.

Mr. Charles R. Hosper, a director of the Canadian Pacific Railway and the Bank of Montreal, said in an interview with the Victoria Colonist: "Canada faces the future with confidence. Its banking position, which is the backbone of the country, never was in a more satisfactory condition. This is also true of its leading industrial companies. They have been able during the last few years to fortify themselves against any setback that is likely to occur."

"We hear much of Canada's undeveloped resources; of its pulp and paper, of its wonderful water power, which make these resources available and profitable, also of the steel, iron and shipbuilding industries on the Atlantic coast, and of its great north prairie land areas, where an enormous, once increased production of hard wheat is possible and which is in demand throughout the world; but one hears very little of what seems to me to offer the greatest possibilities of all, and that is the mineral resources, which are practically untouched in British Columbia."

"The geological map, I believe, indicates that there exists a larger mining area in British Columbia than there is either of the great mining centres in the United States to the south or in Alaska to the north. In these territories to the south, which are practically bordering on British Columbia, there is, perhaps, ninety per cent. of the developed mineral wealth of the United States, while in Alaska there are also very large and profitable mining operations; and that British Columbia has not procured its share, I am sure, is due largely to the fact that we have lacked the capital that has been so freely supplied to our neighbors."

"Within the last year new methods of treating the ores of British Columbia have been in successful operation, which promise in a short time to make this province one of the leading zinc and lead-producing countries of the world. Similar methods are being similarly applied to the gold mines in the Rossland district, which will largely decrease the cost of production and will increase the output of the precious metal, which is so much desired from an all-world point of view."

# Canada Free To Voice Views On the League

Montreal.—Hon. N. W. Rowell, president of the privy council, speaking before the McGill University club, gave an emphatic nod to the objections to certain United States senators to representation of Canada and other British dominions on the League of Nations. He pointed out that Canada had won a position as practically an independent nation although still part of the commonwealth of nations that made up the British Empire. Hence, Canada was as free as any other nation to voice its views at the council of the League of Nations, and would even disagree with Great Britain if such a course seemed proper to her.

Mr. Rowell concluded his address by saying: "No nation will finally pitch itself on record as denying its right to the right to speak in the council of the League of Nations which he soldiers did so much to win, while such nation claims a vote for other nations of much less intrinsic importance which may have done little or nothing in the war."

"Canada has won her right to a place in the assembly of nations by the blood of her sons, and this right, thus won, the Canadian people will never surrender."

## Charge of Melting

### Down British Coins

Men Were Arrested Under Provisions of Defense of the Realm

Act

London.—Testimony was taken in the case of six persons, in connection with Harry Lewis, a barrister, and Chamberlain, diamond merchant, who are charged with having broken up and melted gold coin. They were arrested under a provision of the Royal Assent Act.

The testimony tended to show that no less than 110,000 sovereigns in gold coin were withdrawn from the Bank of England in the course of a year by the accused. The total weight of the metal was ten hundredweight.

The lawyers, on behalf of the Crown, asserted that the defendants had organized a remarkable system for securing coins, which were melted down and the gold sold.

During December alone, it was charged, they disposed of bar gold worth £9,400 sterling, while in the course of the month they succeeded in getting 26,000 sovereigns from the bank.

## Lady Astor May Second Address

London.—Suggestions have been made that Lady Astor, the only woman members of the House of Commons, be called upon to move or second the address replying to the King's speech from the throne on the occasion of the re-opening of parliament on February 10. The Mirror speculates whether Lady Astor, in case she is chosen in either place, will wear full court dress in accordance with the tradition which prescribes that the member making the motion or seconding it shall wear a uniform or court costume.

# Holland Prepares Reply to Demand Of the Allies

The Hague.—The reply of the Dutch government to the demand of the allied powers that the former German emperor be given up to them for trial is being drafted and will be forwarded shortly to the Dutch minister at Paris for communication to the allies.

Although Holland is determined to stick closely to diplomatic precedent in this matter, and intimates the text of the reply until it is delivered, there is apparently no cause at the present time to make any change in the predictions of the Dutch newspapers that the Dutch government will decline to accede to the demand.

The Associated Press was informed by a high official that the former German emperor had been in no way consulted about the reply, nor had he even been officially informed of the demand for his extradition.

The Vlaardingen says:

"The Dutch government will prob-

ably answer that it is her intention, and duty to refuse extradition. It will

Advocate Guard of  
German Diplomats

Secretaries and Attachés Take Up  
Residence in Paris

Paris.—The advance guard of the German diplomatic mission to Paris has arrived here. It comprises secretaries and attachés, who took up their residence in the former German embassy. Wilhelm Meyer, who is to be the German chargé d'affaires, is due to reach Paris soon. Baron von Treutler, minister plenipotentiary, delegate to the peace conference and an expert on reparations, accompanied the mission.

## Ross Rifle Factory Settlement

Will Receive Two Million Dollars  
From the Government

Ottawa.—The government, acting on the advice of its counsel, Messrs. Tilley and Meredith, Toronto, has finally settled for two million dollars the claim of Sir Charles Ross for compensation for the expropriation of his rifle factory and plant at Quebec under the War Measures Act in March of 1917.

The case was pending in the Exchequer court and was to have come up for hearing this coming spring, the court's award being limited to a maximum of three million dollars, according to the terms of the order-in-council granting the flat.

Sir Charles Ross, though advised by his own counsel that the full amount allowed by the limitations of the order-in-council could be secured from the court, agreed to accept the two million dollars offered by the government in view of a quick and final settlement. The cheque was paid over to him.

It is understood that the government's own experts, who valued the physical assets expropriated, reported the weavers were brighter in Canada, because food was cheaper than in England.

There also appears a letter from Bishop Perrin, of Willesden, and formerly of British Columbia, who writes on behalf of the Church Emigration Society, appealing for help for clergy who wish to settle in the British dominions.

An overseas appointment, adds the bishop, though it may not mean much in increased pay, frequently provides better openings for children. It is hard that clergy should miss this chance for lack of a comparatively small sum.

**Italy Under Martial Law**

General Railway Strike Has Tied Up  
the Country

Paris.—Northern and Central Italy are in the grip of a general railway strike, but Southern Italy is not so seriously affected, according to the Turin correspondent of the *Le Petit Parisien*. The Italian government was able to run a few trains over the principal lines, the trains being heavily guarded by troops armed with machine guns.

Martial law is enforced in the principal cities of the country, the streets of which are patrolled by cavalry and are under the guns of artillery units, it is said. Stores, theatres, and all places of business are ordered to close at eight o'clock in the evening, and every place forbidden to receive visitors or buyers. Police authorities have ordered the magnetos of all automobiles confiscated to prevent the strikers using the machines.

## Prince Reaffirms Intention Of Re-visiting Canada

Says He Is Still Receiving Large  
Mail, But Not All From  
Fair Sex

London.—The Prince of Wales was the guest at a large and enthusiastic dinner of the Pilgrims. More than three hundred persons were present. The Prince made a speech, partly serious, partly humorous. "With some modesty he delivered personal touches here and there and had a clamorous reception. The Prince reaffirmed his intention to revisit Canada, particularly the middle and far west, saying that the best proof that one had enjoyed a visit was his earnest desire to repeat it. He remarked:

"I am still receiving a large amount of mail from the United States and not all of it from the fair sex," which provoked great merriment.

Another spontaneous touch was greatly cheered. Referring to the chairman's remark that the Prince, who was again domiciled as a citizen of England, His Royal Highness said:

"I hope I am demanded as a citizen of the British Empire."

Wearing the broad ribbon of the Garter and his war medals, the Prince shook hands with all the guests as they arrived.

"My right hand is in a pretty bad condition from handshaking. I hope the Pilgrims won't mind if I use my left," he remarked to the chairman, Lord Desborough, exhibiting his right hand, which was red and swollen. It was noted, however, that to the left of the man he gave his right hand, while to the rank and file he gave his left.

### Of Carpet Weavers

Are Attracted to Canada By Higher  
Wages and Lower Cost  
of Living

London.—Passenger on board the Scandinavian, leaving Liverpool, included carpet weavers from Halifax and Kidderminster, said to be attracted towards Canada by higher wages.

Representatives of Canadian manufacturers state that in addition to earning higher wages, the prospects for the weavers were brighter in Canada, because food was cheaper than in England.

There also appears a letter from

Harbin, Siberia.—Gen. Semenoff, commander-in-chief of the all-Russian armies, has issued a proclamation declaring that he has assumed the supreme rulership of Siberia. According to Gen. Semenoff's representative here, his assumption of supreme power is only temporary and is due to the fact that the whereabouts of Admiral Kolchak is unknown.

**German Horse Market**

Berlin.—Historic Königsplatz was converted into a horse market. This market will be conducted by the city of Berlin in pursuant to the provisions of the Versailles treaty, which calls for delivery of horses to France and Belgium. Owners of horses in this city were threatened with heavy fines if they did not appear at the market.

**Saskatchewan's Undeveloped Resources****Will Bring Billions of Dollars to the Province When Developed.**

In sum total the resources of Saskatchewan yet not yet utilized from the crown, and still undeveloped, represent wealth greater than all the wealth of this great province at the present time. There is arable land worth at the last calculation \$500,000,000. There is coal worth \$40,000,000,000. There is the possibility of water power development comparable with Niagara - 1,300,000 horse power is the development estimated by the department of the Interior. There are forests of tremendous extent. There are fisheries capable of adding millions yearly to the income of the people of the province. There is a special skill in the various trades and the many anxieties of today. Sufferers find themselves tired, morose, low-spirited and unable to keep their minds on anything. Any sufferer from worry or from the blood vessels are full of groundless fears, and do not sleep well at night. Headaches, neuritis and other nerve pains are part of the misery, and it all comes from starved nerves.

Doctoring the nerves with poison, our sedatives is a terrible mistake.

The only real nerve tonic is a simple syrup of rich red blood, therefore to cure nervousness and roundabout health Dr. Williams' Pink Pills.

You can get these pills through any dealer in medicine, or by mail - one box of 100 pills for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

**Manitoba Farmer Imports Pure Bred Horses**

Farmers Are Sparing No Expense In Order That Their Livestock Shall Be of the Highest Class.

Thirteen excellently bred Clydesdale stallions have just been purchased in Scotland by Ben Finlayson, of Brandon, Manitoba. Among the animals are a number of prize winners at the leading shows on the other side. Such importations as these are indications of the enterprise of the farmers of this progressive country, who are sparing no expense in order that their livestock shall be of the highest class.

The best is none too good for Western Canada farmers. And, what more, the returns from their farming operations enable them to obtain the best. Now that the markets of the world are being re-established, a steady influx of pure bred livestock into Western Canada may be looked for.

**A TONIC FOR THE NERVES**

The Only Real Nerve Tonic Is A Good Supply of Rich, Red Blood.

"People would only attend to their blood, instead of worrying themselves ill," said an eminent nerve specialist, "we doctors would not see such a thing." The nerves are crowded with worry and nervous wrecks. More people suffer from worry than anything else."

The sort of thing which the specialist calls is the nervous rumination, the only real nerve tonic and the many anxieties of today. Sufferers find themselves tired, morose, low-spirited and unable to keep their minds on anything. Any sufferer from worry or from the blood vessels are full of groundless fears, and do not sleep well at night. Headaches, neuritis and other nerve pains are part of the misery, and it all comes from starved nerves.

**Sawdust Bricks**

Can Withstand Pressure of 2,500 Pounds to the Square Inch.

The extravagance and the romancing of yesterday are the sober facts of today. Jules Verne has established as a prophet, and men like him that have trusted the future see their justly justified. If the invention of F. H. Orr, of Seattle, Washington proves to be all that is hoped, then the sawdust brick will soon have revolutionized the work of building. Stated briefly, the bricks are made of highly compressed sawdust that has been treated with fire and cold resisting chemicals. Not only do they have the qualities that such chemicals give, but they can withstand a pressure of 2,500 pounds to the square inch. It does not take much imagination to figure the possibilities of such material in building, and there is an added economic significance in the fact that direct and profitable use is made of a "by-product" of the saw-mill and forests that are notwithstanding the various devices for utilizing it have been less a visible waste. When it is added that the bricks can be turned out in something less than 24 hours, their use in reconstruction work is apparent.

**Government Briquette Plant**

The manufacture of the first year's output of 30,000 tons of fuel by the briquette plant at Béaumont, Saskatchewan, is expected, will begin by August 15.

It is estimated the fuel will sell for about \$1.00 a ton. The plant is being built by the Liquite Utilization Board of Canada.

Probably it is because the earth is round that so few people act on the square.

**Denounce Head****Of Sinn Fein****American Legion Posts Hit Hard at De Valera**

Declaring that the honoring of Eamon de Valera, the Sinn Fein leader, who is slated to come to Los Angeles on November 19, is "an insult to the men who were in the service of the United States," three eastern posts of the American Legion, composing the First Pennsylvania State contingent of that organization, have adopted resolutions, copies of which were received in this city yesterday. The resolutions, unanimously passed at a meeting of the contingent at Harrisburg, are as follows:

"Whereas, Eamon de Valera, self-styled 'president' of the Irish republic," did, during hostilities between the Central Powers and the Allies, all in his power to hinder and obstruct the governments of the allied nations in their prosecution of the war, did have traitorous dealings with the enemy, thereby increasing the danger to our soldiers and the difficulty of winning the war, and

"Whereas, he is now visiting the United States and is being publicly received and honored in some of our cities; therefore, be it

"Resolved, that such public reception and honoring of the said Eamon de Valera is an insult to the men who are in the service of the United States and is a reflection on the cause for which our comrades fought and died, and that it is the sentiment of the First Pennsylvania State contingent of the American Legion that such receptions, ovations and honors accorded the said Eamon de Valera or any person who was disloyal to the allied cause during the war should be condemned.

"Post 39, Norristown,

Major Snyder will take no part in the "warm welcome" which the Examiner says will be extended to Dr. Valera when he reaches Los Angeles. Of that the mayor says:

"I am the man of Los Angeles, and such, of course, I have the duty of greeting such visitors as call at my office to pay their respects. If Edward de Valera calls at my office and wants to see me, I shall certainly see him, but I am not running after him."

Major Snyder's statement is in line with the action taken by the mayor of Baltimore, who informed Dr. Valera that he (the mayor) could not participate in any official action. A similar stand was taken by the mayor of Philadelphia. In Philadelphia, as in Los Angeles, the local committee of Sinn Fein sympathizers had arranged an elaborate program. Governor Sprout of Pennsylvania and the mayor and other city officials of Philadelphia were to take part and officially welcome Dr. Valera. A few days before the Sinn Fein leader's arrival, the Governor was suddenly "called out of town on business," and the Philadelphia newspapers announced that no city officials would take part in the Dr. Valera welcoming exercises. Dr. Valera was welcomed both by Baltimore and Philadelphia only by local committees of Sinn Fein sympathizers. — *L. A. Times, Nov. 8, 1919.*

WHAT MISS SIMPSON SAYS OF DODD'S KIDNEY PILLS

Before Taking Them She Could Not Walk - Now She Can Walk and Work, and She Gives All the Credit to Dodd's Kidney Pills.

Ville Marie, Que., Jan. 26th. — (Special) — One more tribute to the great work Dodd's Kidney Pills are doing for the health of Canada comes from Miss. Angie Simpson, well known and highly respected here.

"When I commenced to take Dodd's Kidney Pills," Miss. Simpson states, "I had to bear the most severe heart-burned trouble so I could not walk. Now I can walk and work."

Miss. Simpson is not entirely cured yet, but the great benefit she has received from Dodd's Kidney Pills is that she is firmly convinced they will effect a complete cure. She has been a sufferer for eighteen years and has had four months' treatment in a hospital before trying Dodd's Kidney Pills.

Dodd's Kidney Pills are a kidney remedy that relieves the work of the heart by making it easier to pump the blood. Pure blood carried to all parts of the body means new health all over the body.

"Now I can walk and work."

Blairmore was the centre of a severe storm on Sunday afternoon last, that seemed to have been contracted by sudden atmospheric changes. Clouds seemed to gather from east and west and in a very short time began to break out into a violent hurricane with heavy snowfall. A blinding blizzard raged for several hours, while the temperature took a drop of about thirty degrees. In just as short time as the storm arose the snow abated at about 9 p.m. As a result of the storm, auto traffic was tied up for several days.

Mr. Buchanan was formerly manager of the Canadian Bank of Commerce at Coleman.

The anniversary services in connection with Bellevue and Hillcrest Methodist churches were a huge success. Large congregations attended the service at Hillcrest in the morning and Bellevue in the evening, and enjoyed forestal and appropriate discourses from Dr. Kerby, principal of Mount Royal College, Calgary. On Monday night Dr. Kerby delivered his new and powerful lecture on "The Gains of War, and Tasks of Peace" at Bellevue.

In a list of business and professional openings along their western lines the officials of the Canadian National Railways announce that the west is loudly calling for 73 medical doctors, 66 druggists, 25 dentists, 32 blacksmiths, 25 hotel keepers (boozeholes ones), 28 bakers, 19 butchers, 12 bakers, 12 shoemakers and five jewelers. There are 673 openings altogether, 116 for professional men, 506 commercial and 51 industrial. Most of these opportunities are to be found in small towns in newly settled districts, but the lure of the city is so great that the majority prefer to live in the city on a mere pittance than go to the small towns and help in its development.

A double fatality occurred at High River recently, when Mrs. Rush Baughn and her mother, Mrs. Euphemia Rouse, were killed. The unfortunate women were returning from Calgary, where they had been for the purpose of adopting a young child, and upon arrival at High River were met by Mr. William Forrest, Mr. Baughn being away at the time. The following morning they were being driven to their home in the downtown, and when a short distance from their home, one of the front wheels collapsed, precipitating the occupants to the ground, rendering them unconscious, from which they never recovered. The young child and driver were rescued.

## Bellevue Happenings

The Burns' concert and dance on Friday night was the greatest event in its line of the season. There was not a dull moment from the start to the finish. The chair was occupied by Rev. Harry Peters a "Scotsman" of Welsh parentage, who after a few well directed remarks, go the affair off to a good start. The building was packed to the doors, and the atmosphere was very much Scotch. The programme rendered was in part as follows:

Selection by Kerr's orchestra  
Song by Mr. McMurdo, of Pincher Creek.

Song by Mrs. F. Smith of Hillcrest.

Song by I. Hutton, of Coleman Selection by Kerr's orchestra.

Solo by Mrs. A. Hallworth. Solo by Mr. McMurdo

Scots Selection by Mr. Kerr on violin.

Comic Scotch Song by Mr. I. Hutton.

Special mention should be made of the excellent impression left by Messrs. McMurdo and Hutton, who were to present an assist in the programme. The performers for the manner in which they helped towards the success of the concert. A financial statement of the affair will be published in the near future.

When doctors disagree who shall decide? There was a favor of this in the case of Reeman vs. Reemann with the deciding party to be his Honor Judge Jackson. The trial was held in Blairmore on January 20th. It has been for three days, concluding on Wednesday afternoon with his Honor's judgment. Seven local doctors witnessed the witness stand, Drs. Roy, McNally, Connor, and Campbell for the plaintiff, and Drs. Thomas, Tuller and Galbraith for the defense.

The plaintiff, Dr. Beaman, formerly of Magrath, and now of Bellevue, claimed the sum of \$383.70 from Henry Reemann, son of Magrath, for professional attendance for a fracture of the right leg defendant had sustained. The defendant denied the claim stating that it was barred by the Statute of Limitations. The point was argued before his Honor and the trial was adjourned to allow the defendant time to be allowed to present his defense.

Defendant further argued that the plaintiff was neglected in his treatment of the leg, in that he did not use the same bone hook so tightly that the blood vessels were allowed to circulate through the arm and veins and there was no means of escape for the pus created. He also claimed that defendant instead of putting a tube or using other means for the pins, caused by inflammation to escape running the wound with cotton and other stuffings from time to time and inserted a jack knife in a poisoned condition adjacent to the wound, causing blood poisoning. As a consequence defendant alleged that the whole leg had to be amputated from the thigh instead of from below the knee.

J. R. Palmer for the plaintiff and C. F. Hart for the defense. — Lethbridge Herald aid of January 22nd.

## Keith-Lambett Nuptials
